## Inspire to Buy

Property styling is a significant contributor in helping you sell your home quickly. The idea is that potential buyers should see the home styled in its best light.

**Home staging is a proven way to increase the sale price of your home.**

### DIY Property Styling

Completing your own staging projects can dramatically reduce the cost of hiring experienced professionals.

At Click on Rentals, you not only get great quality home staging furniture, but you are also able to consult with our staff to achieve the look you want.

Our staff will guide you from start to finish, to help you create a warm and inviting home to appeal to the widest range of buyers. We have been in the furniture rental business for over 25 years, and our aim is to help you sell your home!

#### Home Staging Extras!

Beautifully made up beds are a major part of home staging, and at Click On Rentals our luxurious linen range is regularly updated.

We have all the extra accessories that make up a room - right down to the cushions and throws.

Often it is the smallest details that create the greatest impression. To create that impression, you may only need to hire just a bed with a rug or a set of bedroom lamps - and that is fine with us!

#### Professional Styling

In addition to renting furniture, we can also offer the services of an interior stylist to prepare your home for sale. Styling your home through home staging is the most effective way to achieving great results and bring more potential buyers through the door.

We can also offer the service of a Virtual Stylist, where our stylist will assist you via email to advise you the best way to finish your home for sale.
